

I am writing to express my desire that LPFM service not be given priority over FM service in my area. I am a listener to K-Love, which is a listener sponsored radio station. I pay for this station because this is the only Christian radio station that plays music in my area. This allows me to listen to music that I don't have to worry about my children hearing profanity or lyrics that are offensive. If K-Love were to be displaced by a LPFM station, this source of music would be lost in my area. I also listen to K-Love as I travel, as I know that it will be regional in coverage. I believe that K-Love offers a resource to the community and is loved and supported by it's listeners. The proof of the community support is evident by the financial resources that it's listeners provide. Please don't allow another LPFM station to displace K-Love in my area.
